# FYLO Wall Covering

## Zenith

### Features:

Meet Fylo, a sophisticated character that combines two panels with different thicknesses to give a plain wall a dynamic and contemporary feel. Mirror the elements to go from classy to fun and vice versa to fit various spaces and moods.

Each model comes in a set of 2, set can not be mixed, need to be purchase individually.

Acoustic wall panels with bevel. Installation with our patented environmentally friendly and glue-free solution "Undercover."

**Design:** IMPACT ACOUSTIC

### Environmental:

- Cradle to Cradle Certified™
- Product qualifies for LEED v4 specifications on VOC emissions in LEED EQ credit
- SUPPORTED BY CLIMATE KIC

**Warranty:** 12 year product

### Finishes:

100% PET (min. 60% post-consumer)

ARCHISONIC® is a high-performance sustainable acoustic absorber made from up-cycled plastic bottles.

ARCHISONIC® is manufactured at the highest quality standards, yet slight colour and surface deviations caused by the high degree of recycled fiber are an inevitable part of the product characteristics and do not claim warranty services.

Material varies in colour when shown in monitor or in print.

### ARCHISONIC:

|                                                                                     |                                                                                      |                                                                                       |                                                                                       |                                                                                       |                                                                                       |
