MAKR

Storage & Divider System

By Zenith Design Studio

Be the MAKR of your storage solution

As businesses embrace the dynamic nature of work, the need for storage solutions that adapt to their unique requirements has never been more pressing: Workplaces require the flexibility of a storage solution that works for them.

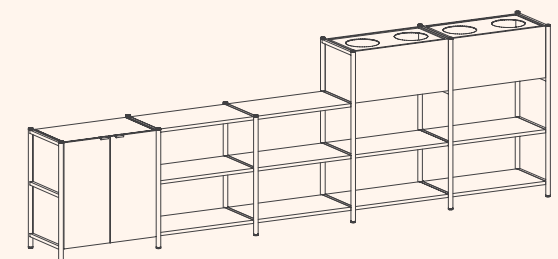

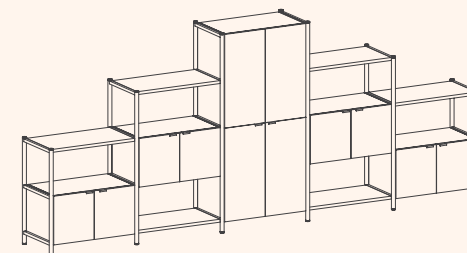

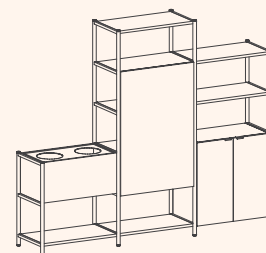

Zenith rises to meet this challenge with their newest storage system that lets you be the maker of your storage solution, aptly named MAKR.

Agile flexible spaces require highly configurable storage solutions, and MAKR Storage Divider System fulfills this need with finesse. Its modular design allows for effortless customisation, enabling businesses to tailor their storage layout to suit evolving demand.

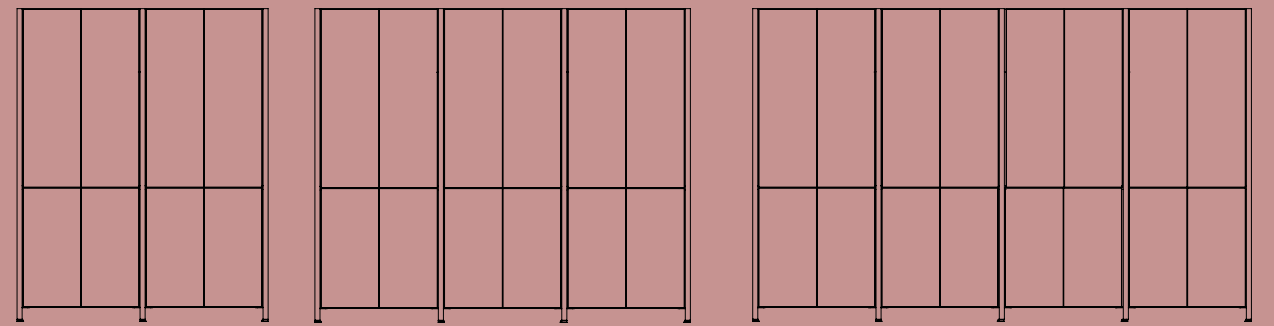

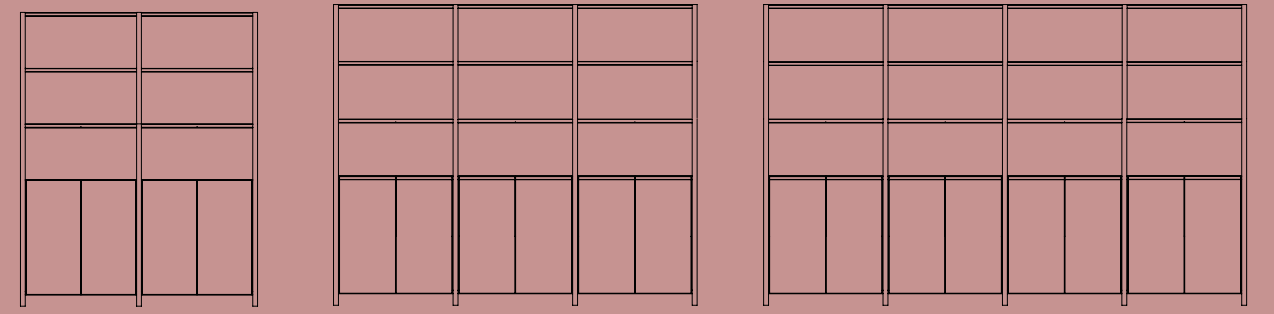

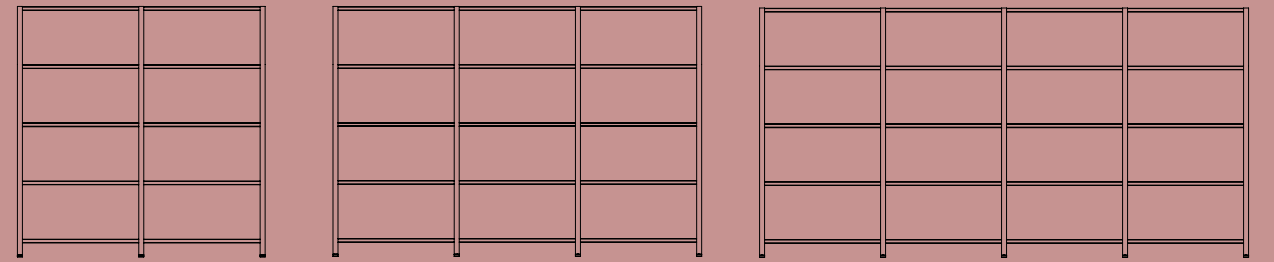

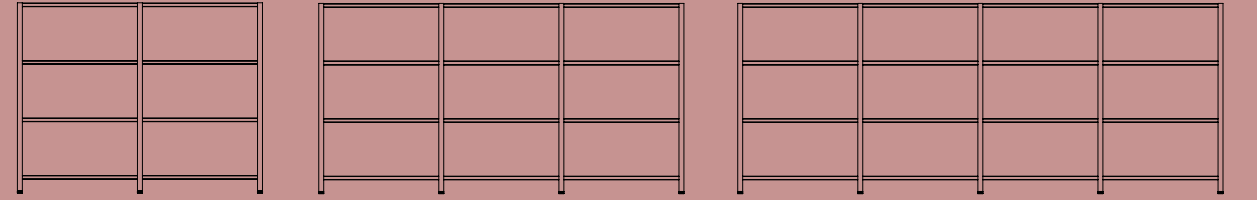

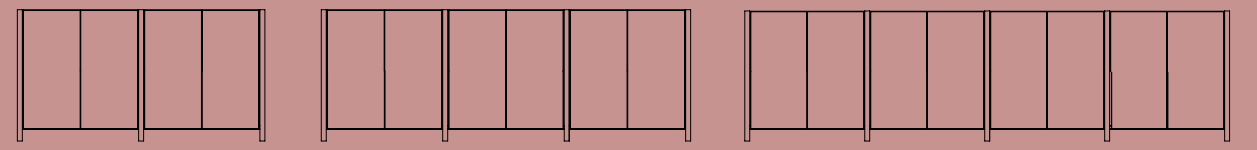

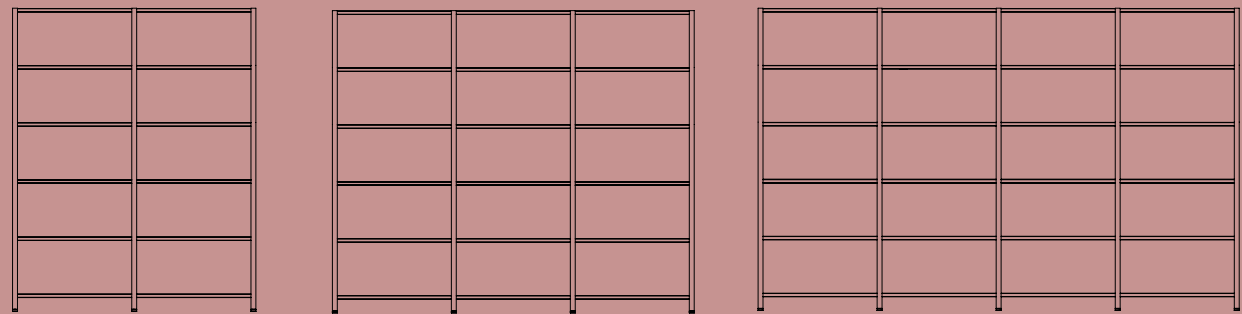

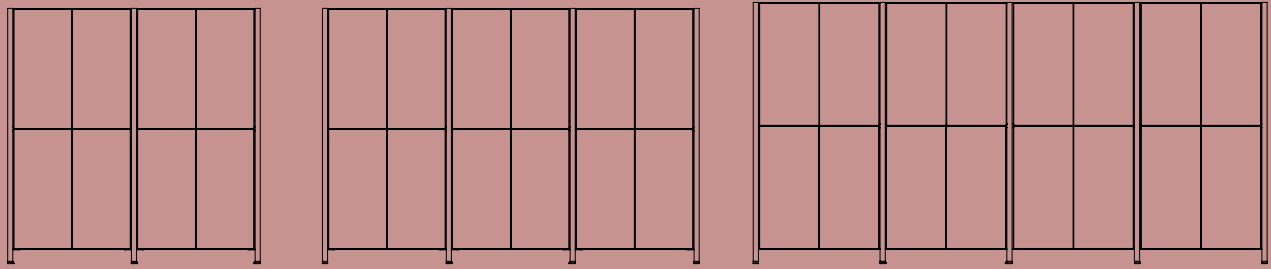

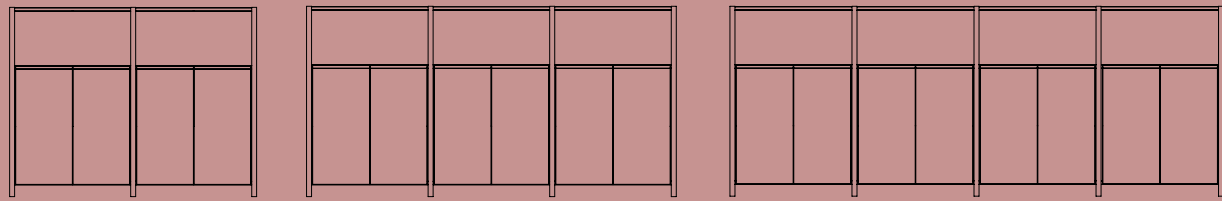

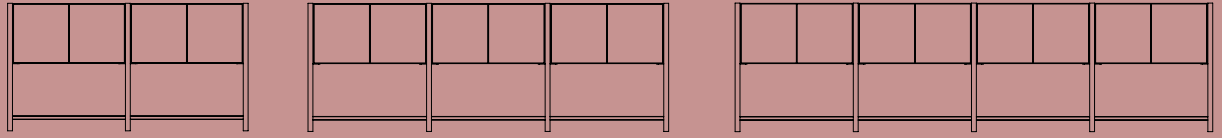

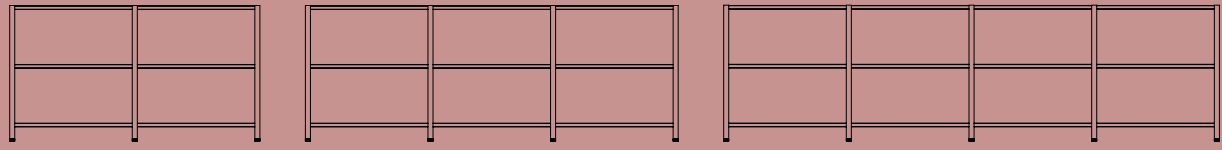

MAKR offers a selection of laminate joinery, metal, shelves and upholstered elements, allowing businesses to customize to reflect their brand identity and aesthetic preferences.

Be the MAKR of your storage solution
[Create your own here](#)

A defining aspect of MAKR is its highly pragmatic design, which leads to a pared-down, 'clean' aesthetic. From shelving, cupboards, planters and whiteboards, each component is meticulously crafted to make a style statement while meeting the demands of practicality.

MAKR Storage Divider System doesn't merely provide storage; it serves the dual function of defining space. Through strategic placement, MAKR storage units delineate specific work zones, fostering a sense of privacy for diverse work styles and tasks while preserving the benefits of an open layout.

In blended and agile offices, which host permanent, hybrid and on-the-go workers, clutter can be the enemy of productivity. MAKR addresses this issue by offering a sleek and minimalist storage solution that 'makes' spaces and complements most modern office décor. By seamlessly integrating storage with workspace

Zenith

Design

Studio

We're a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you'll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

Zenith | curators of the
modern workplace

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
