SOL-EDT is the next generation of Zenith's highly successful 2017 SOL-MIX collection; a cohesive range of lounges, lounge chair and ottomans that are configurable to suit small or larger spaces.

SOL-EDT offers a 'softer' geography; the sharper geometric edges of SOL-MIX have been tempered in favour of more rounded angles, in keeping with the modern hybrid aesthetic.

Building on the success of the SOL-MIX range, Zenith's new SOL-EDT collection integrates high-performance design with a softer, more modern aesthetic. With a large selection of pieces, SOL-EDT can be configured to create unique settings in any space.

SOL-EDT offers lounges and ottomans in multiple sizes, concave, convex and corner pieces to create unique settings befitting the user's requirements.

Arms can be fitted to various lounge configurations for added comfort or division between seats.

We're a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you'll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

## Zenith | curators of the modern workspace

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
