RYO Stool

Zenith

Features:

RYO is a unconventional stool and support aid. The curved saddle-like seats allows you to actively sit and swivel to the desired position. RYO stool is height adjustable and can be mounted to the wall (screws not included) as a supporting aid for areas where flexibility of function is essential. The button to activate the gasspring is integrated under the seat.

Options:

- Tilting (S172) and non tilting base (S173)
- Mounting option on wall
